This travel trailer was built by Open Range RV who is now called Highland Ridge RV. The 274rls is one of the Light series trailers for this company. The trailer is 8 foot 4 inches wide and 31 feet 3 inches long.

As you enter the living area through the full view vented glass door, you will find the first of two large opposing slides. The slide on the passenger side measures 40 by 93 inches and has vented windows on all 3 walls. It holds the two wall huger recliners w/ foot rests and the caster mounted island/table during travel. The left slide measures 27 by 93 inches and contains the entertainment center. It has a 35 inch flat screen television, a ste/DVD/DVR/radio and a28" wide fireplace with an electric heater for those cool nights. Also in this slide are the duel fuel refrigerator, microwave oven and a 3 burner stove with an oven.

Amongst even more vented windows in the back of the trailer sits a seven foot sofa with a quick fill air mattress. The two sink kitchen cabinets sits opposite the sofa in its buffet style setting. The island has storage drawers on both ends and table leaf's on the other two sides. This allows you to expand the table when a room is needed. Two padded folding chairs are included. The table can be placed behind the sofa for additional seating.
